Bussole a espansione Expansion bushings

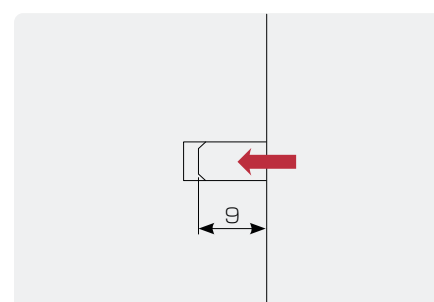

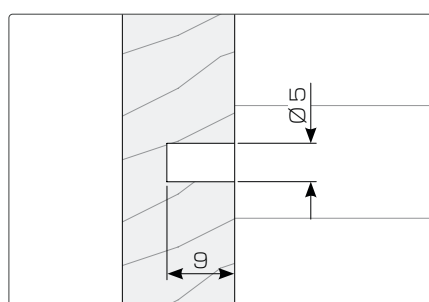

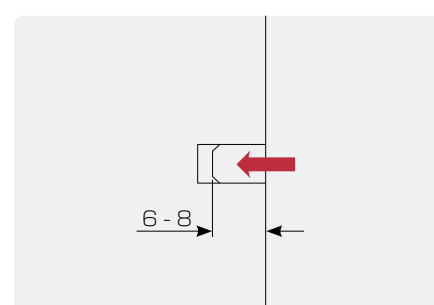

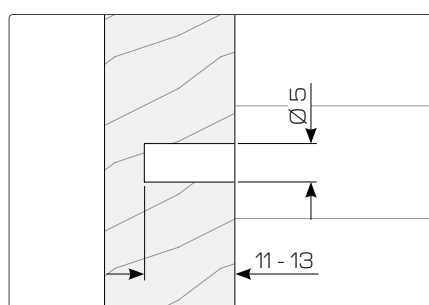

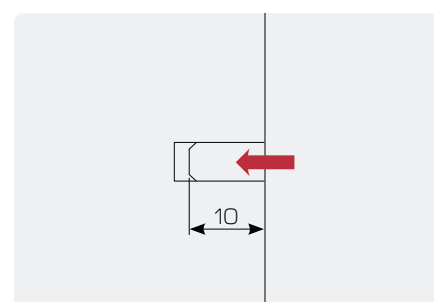

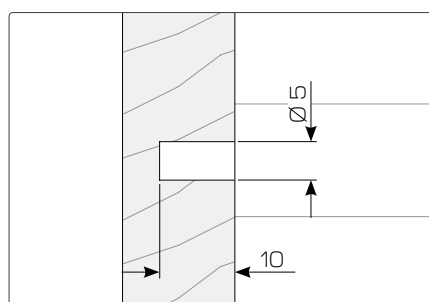

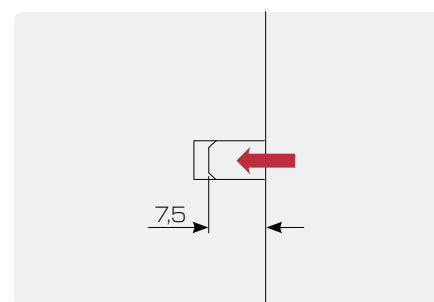

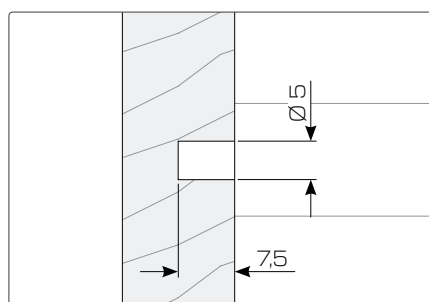

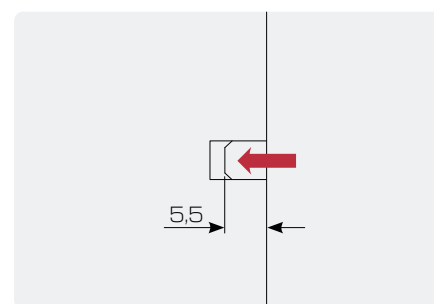

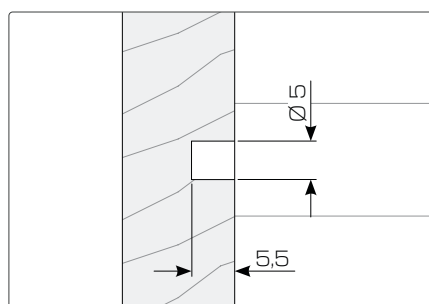

Componenti in ottone progettati per realizzare sistemi di ancoraggio affidabili per viti metriche, ideali per applicazioni tecniche e di arredo. Disponibili in diverse tipologie, tra cui bussole estraibili, passanti, con pastiglia e senza pastiglia per viti non temperate. Offerti in varie misure per garantire compatibilità e flessibilità progettuale, assicurando resistenza, precisione e durata nel tempo.

Brass components designed to create reliable anchoring systems for metric screws, suitable for technical and furniture applications. Available in various types, including removable bushings, through bushings, with and without pad for non hardened screws. Offered in different sizes to ensure compatibility and design flexibility, providing strength, precision, and long-lasting performance.
